

Fleet Risk Profiler™ wins Fleet World award.

Pictured below on the left is our Operations Director, Les Owen receiving our award from next to him George Emmerson, chairman of the judging panel. The judging panel made the award as they recognised that our unique Fleet Risk management system is a new and far-reaching approach to tackling fleet & related risks.

We were particularly delighted to receive the commendation award in the Internet category as Fleet Risk Profiler™ was only formally launched in April 2008 at the Fleet Business Show and has already attracted world wide interest.

Next to George are Ken Rogers, editor of Fleet World and Keith Rogers from BCA who also received an award in this category.
